

# **THE GREAT REVERSAL: THE PURSUING GOD**

**Life Group Guide | Sunday, March 27, 2022**

## **Review the Group Guidelines.**

How often do you try to experience/connect with God in a new way? What was that like?

**Read Luke 15: 1-32.** Discuss the following characteristics of God present in these parables.

### ***God pursues us***

The parables covered in Luke were predominately about God pursuing and finding. What encouragement do you find in that for you, your family, and acquaintances?

### ***God rejoices over us***

Pastor Hannah nudged us to move beyond our intellectual knowledge of God to one where we engage with a God who celebrates our presence. Have you found a way to engage with God in that manner? What might it look like to step more fully into that kind of love?

**Read Zephaniah 3:17.** What do these words mean to you?

### ***God reminds us we are worthy***

Author and Christ-Follower Charaia Callabrax writes: *"Many of us... live with a quiet insecurity that God could not possibly fully love us after all God has fully seen in us."*

How does this impact you? Do you connect more with this statement or with the kind of relationship illustrated in the parables? Where do you derive your sense of worth? Share your beliefs around this (not just intellectually, but what your life reveals).

What is something you want to continue to pray over, change, or begin to practice this week as a result of this teaching?

## **Pray together.**
